## EDUCATION

### POSTGRADUATE

MSc In PHYSICS(Electronics)

Nov 2022 | Mumbai,India.

University of Mumbai.

D.G.Ruparel College of Arts,  
science and comm.

Matunga,Mumbai.

CGPA: 8.14/10.00.

### GRADUATE

BSc In PHYSICS

Nov 2020 | Mumbai,India.

University of Mumbai.

D.G.Ruparel College of Arts,  
science and comm.

Matunga,Mumbai.

CGPA: 7.49/10.00.

### HSC

Science

May 2017| Mumbai,India.

Maharshi Dayanand college  
Parel,Mumbai.

Percentage: 72

### SSC

General

May 2014| Kolhapur,India

Yerandol HighSchool.

→ Ajara,kolhapur.

Percentage: 85.40

## SKILLS

### PROGRAMMING

Coding languages

• Cpp

Scripting languages

• HTML • CSS(SASS)

For Frontend and Backend

• Javascript • React • Redux

• Express • Mongoose • MongoDB

• Nodejs

Familiar with

• JAVA • MySQL

## PROJECTS

### 1] SOCIAL MEDIA WEB APPLICATION | MERN STACK

Jan 2023 - Present | [source code](#)

#### FRONTEND

- Frontend is designed and developed on **HTML,CSS(sass),Javascript Reactjs** and **Redux**.
- **React** is used to build single-page application, it's also used to create reusable UI components.
- **Redux** used for central store that holds the entire state of the application.
- **Cloudinary** is used for an end-to-end image- and video-management solution for website.

#### BACKEND

- Back-end is designed and developed on **Node Js,Express Js,Mongoose** and **MongoDB** Database
- In website to handle requests created **Routers** using Express and use as Middleware.
- **Schema** function of Mongoose used for create Object models for Website.
- **MongoDB** is for Database,which is NoSQL.To manage database **Atlas** cloud server is used.

### 2] E-COMMERCE WEB APPLICATION | REACT AND STRAPI

Jan 2023 - Present | [source code](#)

#### FRONTEND

- Frontend is designed and developed on **HTML,CSS(sass),Javascript Reactjs** and **Redux**.
- **React** is used to build single-page application, it's also used to create reusable UI components.
- **Redux** used for central store that holds the entire state of the application.
- **Cloudinary** is used for an end-to-end image- and video-management solution for website.

#### BACKEND

- Back-end is designed and developed on **Strapi** which is **Node.js** based, Headless **CMS**.
- Using **Strapi** created RESTful JavaScript APIs.It's helps to create both simple and complex backends.
- In website **Stripe** used for Payments.It provides a set of programmable APIs and tools for Payments.

## CERTIFICATIONS

Full-Stack Web Development(MEARN Stack) By CodingShuttle

certificate: (<http://drive.google.com/certificate>)
