

RESUME

Mr. THOKE AJINKYA RAMESH
B.E. Instrumentation
Contact no : --+91- 9175195395
E-Mail :- ajinkyathoke@gmail.com
Passport No :- N3726906

ADD :- 788,Azad colony,
Near Emerson Company
Karad, Maharashtra,
Pin: - 415110

Career Goal

Seeking highest Level Position in engineering related industry that will challenge and motivate to continue to work towards a proven record of accomplishment and to be an asset to the organization I serve.

Professional Synopsis

- I am working as a **Engineer- Design Instrumentation** in **M/s VA Tech Wabag Ltd. at (Pune, PRO)**. Associated with Central Engineering Services form **Feb 20 to till date**.
- I am worked as a Sr. Project Engineer in M/s MOJJ Engineering Systems Ltd. (Pune, Manufacturing Division). from Sept. 2015 to Feb. 2020
- Joined as Trainee Project Engineer in M/s SHACHI Engineering PVT Ltd. from Aug 2014 to Sep.2015

Areas of Exposure

Field instruments, Allen- Bradely PLC Panel, Siemens PLC Panel , Relay based control systems (ICP), MCC panel , IMCC Panel.

Areas of Expertise

COMMISSIONING AND AUTOMATION

Allen- Bradely (Control logix, compact logix ,controller (1769-L18ER-BB1B)
Siemens (CPU 1510 , CPU 1511, CPU 1512)

Electrical Commissioning and Automation and Execution of Multi effect evaporator plant ,Dryer Plant, Distillery Plant

FIELD INSTRUMENTS:

Pressure Transmitters ,Temperature Transmitters, Level Transmitters , Flow Transmitters, Analytical instruments and final control Elements.

Responsibilities:-

- Review of P&ID and add interlock corrections as per process requirements.
- Preparation of Instrument datasheet and specification sheet, Instrument index, I/O List, Control Valve selection, cable schedule, JB location on Plant layout, Control logic & control philosophy for Dryer, Evaporator, Distillery plant.
- Selection of Instruments as per Project requirement.
- Meetings and discussions with customer and co-ordinate with vendors, sub-Contractors to execute the project.
- Systems engineering and implementation.
- Project planning, design, engineering, material & resources management, execution, FAT, installation, commissioning and SAT.
- Software Logic design, development and implementation.
- Study and validation of customer / EPC inputs.
- P&ID Reconciliation & Preparation of engineering database.
- Setting up communication network and development system.
- DCS installation, integration, start-up, trouble shooting, Site coordination.
- DCS Diagnostics and Troubleshooting Projects for Process Plants (Distillery, Dryer, Evaporator).
- Training of Client on process safety and personal safety at time of Commission plants.

Key Deliverables

- Preparations of Control loop drawings, hook up drawing, control wiring drawings, Modification in P&ID for new changes arising through MOC(Management of Change Procedure) related to control Systems .
- Planning, execution and supervision of Project.

Major Project

Detail Engineering, Procurement, Installation & Commissioning of Following Project

Site :- M/s Modern dyestuff (CHONBURI, THAILAND)

Electrical and process Commissioning of Multi Effect Evaporator Plant

Project Specifications

PLC: CPU1511 SP

SCADA: Win CC V7.4

Site :- M/s KHADIM CERAMICS PVT LTD (Syleth,Bangladesh)

Electrical and process Commissioning of Spray Dryer Plant

Project Specifications.

ICP Based Control Panel.

Site :- M/s MALBROS INTERNATIONAL PVT LTD (Panjab, INDIA)

Electrical and process Commissioning of Multi Effect Evaporator Plant

Project Specifications

CPU: 1769-L18ER-BB1B (Allen- Bradely)

Communication type:-Optical Fiber

Site:- COLOURTEX INDUSTRIES PVT.LTD. (Gujrat ,INDIA)

Electrical and process Commissioning of Spray Dryer Plant

Project Specifications

PLC: M 340

SCADA: Vijeo Citect 7.3.

Drive: ATV-71(6 no's)

Communication type:- Ethernet Communication.

Educational Qualification

Sr. No.	Name of Examination	Year of Passing	Marks (%)
1	B.E. (Instrumentation)	2009-14	61.66 %
2	H.S.C.	2008-09	50.13%
3.	S.S.C.	2006-07	66.76%

Academic Project

- "Automatic multi fuel feed to boiler using PLC"
- 8085 Microcontroller project on "Traffic light control"
- Lab View project "calculator"
- Environmental project 'Wind energy'

Software Awareness

MATLAB 7.0, LABVIEW 2009, AutoCAD, COREL DRAW, PROTUS 7.0, NI CIRCUIT DESIGN SUITE 10, MS OFFICE.

Declaration:-The above information is true to the best of my knowledge and belief.
