

Anusha Jami

Btech-Electronics and Communications, Vellore institute of technology,vellore.

I am a highly adaptive student looking forward to take the opportunity where I can leverage my technical skills and knowledge to learn new things and grow as a Engineer.

PERSONAL PROJECTS

IOT Based Patient Vitals Monitoring System (07/2021 - Present)

- The aim of the project is to monitor the Patient vitals such as Pulse rate, ECG, Temperature and the patients surrounding temperature and humidity without any contact. The data can be monitored in the IOT platform. This makes patient monitoring easy and very useful in the pandemic situation.

Accident detection and alert system (07/2021 - 12/2021)

- The aim of the project is to save the person's life whenever he or she is met with accident by informing the predefined contacts immediately .

IoT based autonomous firefighting robotic vehicle- (Mobile and gesture control) (02/2021 - 07/2021)

- The project aimed at making IoT based robotic vehicle which can be used to reach out at places of fire where it may be dangerous for humans to reach and here the robot can be controlled by hand gestures in the inaccessible areas and also by mobile control.

Electro-Cardiogram Analysis and Noise Cancellation Using High pass Filter (07/2020 - 01/2021)

- The project aimed at generation and simulation of ECG signal, acquisition of real time ECG data, ECG signal filtering and processing, feature extraction, calculating beat rate using the most familiar and multipurpose MATLAB software.

INTERNSHIP

SparksFoundation

Computer Vision and IOT

02/2022 - 03/2022

Verzeo

IOT based live projects

10/2021 - 11/2021

SKILLS

Digital Logic Design

microcontroller 8051

IOT

VLSI

C++

Communication

Leadership

ACHIEVEMENTS

Certificate of Excellence in Academics(2021)

Ranked 1st in the branch- Programme Representative of SENSE VIT 2021-22

Research paper publication- "Heart Arrhythmia Detection and its Analysis using MATLAB" (11/2021)

International Journal of Engineering research and Technology

Enphython (10/2019)

second Prize

ORGANIZATIONS

IEEE-Communications Society (12/2019 - Present)

Technical head and co-secretary

ERIDE(Empowering Rural India with Digital Education) (10/2021)

Committee member

IEEE-Signal Processing society (07/2020 - 04/2021)

CERTIFICATES

presented paper- "IOT based patient vitals monitoring system" in the First International conference on Technologies for Smart Green connected societies (11/2021)

Linear Circuits 2-AC Analysis-coursera (03/2020)

Enphython-Vellore Institute of Technology (10/2019)
