

Dr. Dibin Mary George

dibinmary@gmail.com . 09744532803 . <https://www.linkedin.com/in/dr-dibin-mary-george-83b09959/>

EDUCATION

PhD in Electronics, Cochin University of Science and Technology, 2019
Post Graduate Diploma in Computer Application, Rutronix, 2012
NET, University Grand Commission, 2012
MSc in Electronics Science, Cochin University of Science and Technology, 2010
BSc in Electronics with Computer Hardware, MG University, 2008
Plus Two Science, Board of Kerala, 2005
SSLC, Board of Kerala, 2003

SKILL SETS, TRAINING & CERTIFICATIONS

Experienced researcher with 10+ years of experience in the area of microwave electronics, - specialized in design, development and analysis of various types of microwave antennas, millimeter wave antennas, micro strip filters, metamaterials, Epsilon Near Zero metamaterials, ENZ Antennas, Substrate Integrated waveguides etc. and a teacher in electronics for one year. I am very much familiar with state of art instruments like Agilent PNA, R & S PNA, HP 8510C VNA, probe station, anechoic chamber, Microwave Spectrum Analyser, oscilloscope, signal generators and other microwave instruments. I have used Ansoft HFSS, Rsoft, Comsol and CST Microwave Studio for simulation studies. Hands-on experience in building of antenna prototypes using photolithography and CNC Machine.. Implemented multiple antenna concepts and requirements, performed antenna design, hardware development and testing.

EXPERIENCE

Assistant Professor (On Contact)– Nirmala College, Muvattupuzha, India Nov 2021 – March 2022

- Take lecture for the course BSc Physics with Applied Electronics for subjects of Semiconductor physics, principles of Electronics components, power Electronics, Electronics Applications, Microprocessor and interfacing devices, Applications of Microprocessors etc.
- Conduct Exams
- Participate in laboratory practices

Teacher in Physics – Manappuram Academy for Entrance Coaching Center, India August 2021 – Nov 2021

- Take Lectures in physics for Plus one and Plus two medical Engineering Entrance coaching

Carrier Pause – Carrier Pause due to family reasons Nov 2018 – August 2021

- Bright life into the world. Single headedly oversaw end-to-end care towards the health of new borns

Senior Research Fellow – Cochin University of Science and Technology, Cochin, India Nov 2015 – Nov 2018

- Delivered multiple presentations at international and national conferences and exhibited research work at multiple events.
- Experienced in using anechoic chamber measurement facilities (up to 60 GHz).
- Involved in various companies' (private and public sectors) and academic institutions microwave measurements consultancy projects.
- Contributed to learning and teaching programmes within University and supervised postgraduate research students.
- Mentored colleagues with less experience and advised on professional development.
- Coached and supported colleagues in developing their research techniques.
- Developed new concepts and ideas to extend intellectual understanding
- Developed ideas for application of research outcomes.

- Contributed to knowledge generation, knowledge exchange and knowledge transfer activities.

Research Fellow– University of Kent, Canterbury, United Kingdom

Oct 2015 – Nov 2015

- Developed new concepts and ideas in metamaterials used for antenna design.
- Detailed simulations and experimental demonstrations were done on the different set of antennas specialized in Epsilon Near Zero metamaterials.
- Responsible for design, simulation, analysis and testing of antennas in microwave wave frequencies.
- Reported and presented analytical results.
- Guided, led and mentored students in research projects.
- Contributed to learning and supervised research students within University.

Junior Research Fellow – Cochin University of Science and Technology, Cochin, India

Nov 2012 – Nov 2015

- Developed research objectives, projects and proposals in Microwave and Millimeter Wave Antenna Engineering.
- Detailed simulations were done on the different set of antennas and antennas
- Specialized millimeter wave applications, Ultra-wideband (UWB) antennas, Fabry Perot cavity antennas, Circular polarized antennas, filters, Substrate Integrated Waveguide antennas, metamaterial antennas, Epsilon Near Zero metamaterial antennas, Numerical Analysis of various type of antennas.
- Responsible for design, simulation, analysis and testing of antennas in microwave and millimeter wave frequencies.
- Reported and presented analytical results. Contributed to knowledge generation, knowledge exchange and knowledge transfer activities.

Project Assistant – International School of Photonics, CUSAT, Cochin, India

Sept 2010 – Jan 2013

- Worked as a project assistant in establishment of national MEMS design centres under the scheme NPMAS of Aeronautical Development Agency.
- Familiarize with Comsol, Rsoft, Coventorware and Intellisuite software's.
- Guided, led and mentored MSc and M Tech students in research projects.
- Evaluated, monitored and mentored student's academic progress.
- Done various optical devices using software's.
- Delivered multiple presentations at international and national conferences.
- Involved in various academic institutions projects works using various software.
- Lectured multiple subjects include optics and optical fibres.
- The works were presented in 3 international conferences and one national workshop.

OTHER SKILL SETS

I am a reviewer of 5 leading international journals and I have 14 publications to date. Active participant of Research Gate with 1375 reads and 24 recommendations, I have been providing consultation to a US-based company named Emrod for the project to design a protective curtain to shut down the microwave beams in case of a bird flies through, Implemented multiple antenna concepts and requirements, performed antenna design, hardware development and testing. Familiarity with graphics of Corel DRAW X7 and Sigma Plot, Working knowledge in design tools like Ni Labview and Ni Multisim, Familiarity with development language such as C, C++, Java and VB. Proficient computer skills in Microsoft Word, Excel, Power point, MS office and LaTeX documentation, Moderator and Invited speaker of Webinars, Volunteered key roles in International Symposium on Antennas and Propagation (APSYM) multiple times from 2008 till date, Demonstrated ability to work effectively in a group development environment.
