PROFESSIONAL SUMMARY

- Experience as Java Backend Developer in design, development, implementation and testing of Client-Server, Web Applications using **Java / JEE** Technologies.
- Experience in SDLC (Software Development Life Cycle) that includes Requirement Analysis, Design, Coding, Testing, Implementation, and Maintenance with methodology like **Agile**.
- design and Web development using **Java, RESTful API, Spring MVC, MySQL, JPA, Spring boot** and **Microservices**.
- Experience in Core Java Technologies like Multithreading, Collections and Exception handling mechanisms.
- Implemented Client-side Technologies such as **HTML, CSS**.
- Experience with **ORM** tool **Hibernate** involving Connection pooling, Mappings.
- Experienced in testing **RESTful API** using **Postman**, ensuring proper functionality, performance, and error handling.
- Worked with **JSON** objects to frame API request and response payloads.
- Experience with databases like **SQL, MySQL**.
- Used Maven scripts for building and deploying the application in web/App servers.
- Used **Junit** to create test cases for unit testing
- Experience on **Microservices** architecture.

SKILLS

- Java Technologies **Java 8, JEE, Spring, Web Services, RESTful Api, web Api, JPA**
- Front End Technologies **HTML, CSS**
- Version Control **GIT**
- Design Patterns **Singleton, Factory and Decorator**
- Frameworks **Spring and Spring boot**
- Methodology **Agile**
- Web Services **RESTful Web Services**
- Architectures **Spring MVC, Microservices**
- CI/CD **TeamCity**
- IDE **Eclipse, IntelliJ**
- ORM - **Hibernate**
- Documentation Tools **Confluence**

PROFESSIONALEXPERIENCE

FWC IT Services

Java Backend Developer

FWC Talent Portal (April 2022 to October 2024)

This application typically refers to a platform designed to manage and facilitate the recruitment, development, and engagement of talent within an organization. These portals often include features such as job postings, Job Openings, candidate tracking, skill assessments and employee development.

Roles & Responsibility:

- Developed web based Application using Java, Spring MVC, Spring boot, and Microservices.
- Use of OOPs concept & other core Java concepts like multithreading, Collections, inheritance in development.
- Developed various Java Bean components for implementing business logic.
- Clearly & regularly communicated with Management & technical support colleagues.
- Facilitated root cause analysis of Application issues, Unit testing with Junit.
- Involved in interacting with end users for requirement analysis.
- Worked with Java Collection classes like List, Set, Maps etc.
- Fixed software bugs & enhanced project implementing client's new requirements.
Experienced in testing RESTful API using Postman, ensuring proper functionality, performance and error Handling.
- Containerized Spring Boot applications using Docker.
- Used Agile methodology for software development.
- Done code review & configuration build management for the application using Maven.

Tools: Java 8, Spring MVC, JPA, JDBC, Spring boot, Microservices, Hibernate, Jira, tomcat, Jenkins, Junit, Postman, Docker, Kafka, SQL, MySQL and Git.

ScaleneWorks people solutions Llp

Java Backend Developer

Banking: Clearance pro (May 2021 to April 2022)

This project is developing a real time interface between custodian banks and settlement agents. Two main applications of this project are to provide a communication engine and a user interface with exception management.

Roles & Responsibility:

- Developed web pages using Java, Spring boot.
- Use of OOPs concept and other core java concepts like multithreading, inheritance, abstraction.
- Worked with Java Collection classes like List, Set etc.
- Fixed software bugs (Debugging) and enhanced project implementing client's new requirements.
- Testing RESTful API with the CRUD capabilities using Postman.
- Used Agile Development methodology of software development.

- Used Junit to create test cases for unit testing.
- responsible for creating and modifying Database objects.

Tools: Java 8, HTML, CSS, Spring boot, JPA, JDBC, Hibernate, Jira, Junit, Tomcat, Postman, MySQL and Git.

EDUCATION

BTech.

Manufacturing Science & Technology

AIT Bangalore, Visvesvaraya Technological University

LANGUAGES

English, Kannada, Hindi, Konkani.
