OBJECTIVE

Experienced and results-driven Data Analytics and Reporting Management professional seeking to leverage advanced analytical skills, strategic thinking, and leadership abilities in a dynamic organization. Proficient in utilizing data-driven insights to drive business decisions and improve operational efficiency.

EDUCATIONAL QUALIFICATION

Exam	Year of Passing	Percentage/CGPA	University/Board
Bachelor of science (pass)	2018	70%	Calcutta university
XIItH	2014	86%	West Bengal board
Xth	2012	80%	West Bengal board

CERTIFICATION

Completed GNIIT from NIIT on software engineering

Complete Master program from EDUREKA LEARNING CENTER on Data Science

Training includes following modules :

- Introduction to Programming
- Data Structures and Algorithms - Machine Learning Fundamentals
- Database Systems:
 - Oracle 11g (it includes SQL and PL/SQL)
 - MYSQL & MS SQL
- Software Engineering Principles

SKILLS:

- Proficient in Python, Java, C++ and PHP
- Experience with Git version control
- Familiar with Relational Database Management System(RDBMS)
- Data preprocessing and analysis
- Machine learning algorithms (regression, classification, clustering)
- Data visualization using Matplotlib and Seaborn
- Familiarity with libraries like pandas and scikit-learn

Experience:

Aeka Advisors

OCT 2023 -Present

BI Reporting Manager(WeWork India) :

OCT 2023 - DEC 15, 2023

- 1.Data Analysis: Interpret complex datasets and extract meaningful insights that drive business decisions.
- 2.Requirement Gathering: Collaborating with stakeholders across different departments to understand their reporting needs and translate them into actionable requirements for Tableau dashboards and reports.
- 3.Data Visualization: Strong command on features and functionalities, enabling them to create visually compelling and insightful dashboards and reports
- 4.Dashboard Development: Designing, developing, and maintaining dashboards using BI Tools like Tableau And creating reports that effectively communicate key metrics and performance indicators to stakeholders And Ensuring data accuracy, consistency, and integrity within Tableau reports by implementing proper data governance practices and standards.
- 5.Training and Support: Providing training and support to end-users on how to effectively use Tableau dashboards and reports, as well as troubleshooting any issues that arise.

Data Analytics & Reporting Manager(Emami Agrotech(HBC)) :

JAN 5, 2024 - Present

1. Data Analytics

- collecting, cleaning, and organizing data from various sources.
Conducted data analysis using SQL, Excel, and Python to identify trends and patterns.
- Conducted in-depth data analysis to identify trends, patterns, and insights to support business decision-making processes.
- Developed and maintained automated reporting processes to streamline data collection and analysis.

2. Reporting

- Created data visualizations to communicate insights using TABLEAU & AWS QUICK SERVICE
- Design and maintain reporting systems and dashboards to track key performance indicators (KPIs) and monitor business performance.
- Implement data quality standards and ensure data integrity and accuracy across all reporting systems.
-
