ABOUT ME

I am an AI student with a solid understanding of machine learning and data science. I am skilled in Python, TensorFlow, and NLP, and have hands-on experience building AI projects. I'm passionate about using AI to solve real-world problems and am always excited to learn about new advancements in the field. I'm looking for opportunities to apply my skills in an innovative environment.

EDUCATION

2023-Present
B.Tech(AI & DS)

Velagapudi Ramakrishna Siddhartha Engineering College
Vijayawada , NTR District , AP , 52007

2021-2023
Intermediate

Chaitanya Junior College
Nandigama , NTR District , AP , 521185

2020-2021
SSC

Govt High School
Gandepalli , NTR District , AP , 521185

CERTIFICATIONS

- Certified in R Language-NPTEL,2024
- Certified in C, python Languages-2024
- Certified in SQL , PLSQL-2024
- Introduction to Cyber Security-CISCO Networking Academy-2024
- Fundamentals of Cloud Security and Network Security-2024

SKILLS

- Python
- Java
- C
- R Language
- HTML
- SQL

ACHIEVEMENTS

Projects

- I developed a comprehensive Hotel Reservation System aimed at automating and streamlining the booking process for both guests and hotel staff. The system provides an intuitive interface that allows guests to browse available rooms, check real-time availability, make reservations, and process payments online. For hotel administrators, it offers tools to manage room inventory, track bookings, and generate detailed reports. The project utilized HTML for structuring web pages and creating forms, CSS for responsive and visually appealing design, PHP for server-side logic including user authentication and booking management, and MySQL for designing and managing a relational database to store information on users, room availability, and bookings. The primary objective was to deliver a seamless reservation experience for users while automating hotel management processes, thereby reducing manual workload and enhancing booking efficiency.

Internships

- Completed Virtual Internship in Cyber Security (during july-september) - 2024
- Completed Android Developer Virtual Internship (during october-december) - 2024
