CAREER OBJECTIVE

Seeking a full time position where I can utilize my academics to the fullest potential & be able to practically implement my theoretical knowledge and skills acquired during the course of my B.E and project working experience. perceive my goal to work for a fair and dynamic organization which offers a breadth of experiences and career development for any individual

EDUCATION

- New Horizon College of Engineering 2017-2021
Bachelor of Engineering (B.E)
Electrical and Electronics. (7.55 aggr 7th sem)
- Sri Ramakrishna Sarda Ashram (CBSE) 2016
Higher Secondary Education (10+2)
62.8%
- Sri Ramakrishna Sarda Ashram (CBSE) 2014
Secondary Education (10th)
8.00 CGPA

WORK EXPERIENCE

- (HEC)Heavy Engineering Corporation Ltd. February2021 – March 2021
As an electrical engineering intern, I was trained on the complete project lifecycle of industrial manufacturing of high quality steel, blast furnaces and various equipment's designed and manufactured by HEC, learnt execution of engineering diagrams, Tools and machinery operation. Worked on single line diagram of the High Voltage electricity transmission. Practiced the testing & Commissioning of Electrical Switchgears & Breakers. Learnt the roadmap to electrical design of machines.
- Clario September 2021 – presesnt
Appointed as a Associate software engineer, Working on Backend server systems using C#, Asp.net and java and angular js.

TECHNICAL SKILLS

- Pspice & MATLAB
- IoT, PLC
- C & C++
- Basics of HTML, CSS, JavaScript
- Data Structures & Algorithms
- Basics of Python – Django
- Basics of MySQL
- Git

PROFESSIONAL SKILLS

- Enthusiastic, quick to learn and effective at multitasking.
- Strong analytical and problem solving skills
- Excellent written and verbal communication skills
- Public speaker
- Team work and leadership.
- Active Listener
- Good working knowledge of technology and its applications.

PROJECTS

- **AR based infographic Glasses**
 - Worked with Arduino & concave lenses to create a wearable spectacles capable of displaying the infographics of smartphone like time and weather in real time vision. Utilized knowledge of IoT and app development.
- **Smart parking system**
 - Using the Automation technology, created a commercial smart parking a.k.a, motorized multilevel parking system to aid parking solutions. Leveraged the knowledge of Cloud & IoT SKILLS.
- **Low Voltage protection of motors using ZigBee**
 - Aim was to protect and control low voltage motors from low voltage, ground fault, thermal overload and unbalance conditions. Various sensors employed in this design continuously monitors the parameters of the motor. Microcontroller compares all these sensor data with respective set limits and accordingly the switches the relay. This information will be sent to the remote PC using Zigbee communication module.
- **Web based weather dashboard**
 - Weather dashboard Using the knowledge of JavaScript, created a weather dashboard that displays current and upcoming weather using API's. The webpage is made using HTML5 and styled with CSS and bootstrap.

AWARDS

- 3rd Prize Winner, National Tech Fest, MVJCE, Bangalore.
- Class Representative AY (2017-18).
- College Club Member at Green Energy Club.
- Published Research paper at National Engineering Conference of: Rise of Augmented Reality.
- 1st Prize Holder at Intra School Science Exhibition

INTERESTS

Smart IoT projects, Blogging, Football, Drumming, Volunteer works, Vedic Studies.

PERSONAL PROFILE

Date of Birth : 15/01/1998

Father’s Name : Anil Kumar

Nationality : Indian

Known languages : English, Hindi, French(pursuing).

DECLARATION

I hereby declare that the information mentioned above is correct up to my knowledge and bear the responsibility for to correctness of the mentioned particulars.

Place: Bangalore
