## PROFESSIONAL SUMMARY & ABILITIES

- ❖ Overall, **20+ years** of experience in software development and maintenance with specialization in Object oriented design and have knowledge and expertise in
  - SOLID principles
  - Design patterns.
  - API design skills including Data modelling and Interface Definition Language (OpenAPI 2 – Swagger, OpenAPI3, Async API2)
  - API/Event Governance (including API documentation, API management) and Data Monetization
  - API façade development
  - Postman API testing
  - Enterprise Integration layer platform (APIGEE, SOLACE. WSO2)
  - Security layer integration: OKTA, NetIQ
  - Cloud migration: onprem to GCP, Cloud(AWS) to Cloud (GCP)
  - Modern security framework standard OpenID connect, OAuth2 and SAML
  - Secure Web coding development
  - Microservices architecture, design, development & deployment on GCP
  - Cloud native application development using 12 factors app best practice.
  - PaaS platform – Cloud Foundry (HPE helion stackato , PCF)
  - Distributed tracing
  - Caching
  - Defining guidelines & strategy for application transformation on public cloud (GCP, AWS)
  - Platform & Application Modernization (Modernizing java legacy env to Modern env)
  - Application Framework development
  - Reusable component development
  - DevOps tool chain implementation in application delivery pipeline using GitlabEE and Jenkins
  - Logs standardization
  - Containerization (Docker) and Container Orchestration (Kubernetes)
  - Serverless cloud native development
  - Application Instrumentation & Performance Monitoring
  - Performance tuning & Optimization
  - FinOps in cloud environment
- ❖ Ability to train and coach project teams in API design training, Cloud migration enablement, API and Event enablement and new technology adoption.
- ❖ Ability to develop and lead new teams and manage different stakeholders to initiate new strategic program.
- ❖ Leadership skills, Managing stakeholders skills, Influence others skills
- ❖ Have excellent analytical skills , communication skill & Problem solving skills
- ❖ Have travelled to Paris-France for 4 long term assignments.

## JOB HISTORY

- Renault Nissan Business Technology Services India (RNTBCI) from April 2011 to Till Date (~14 years)
- Ford Technology Services India (FTSI) from April 2007 to March 2011 (4 years)
- Thapovan Info systems Pvt.Ltd from August 2005 to March 2007 (1.9 years)

## DOMAIN EXPERIENCE

- 18 years in Automobile industry
- 2 years in other industry

## TECHNICAL SKILLS

- **Dev Tools:** IntelliJ, Spring Tool suite, Vscod, Maven, Gradle, Git, Sonarqube, Draw.io, Github Copilot
- **Events & APIs:** Swagger/OpenAPI 2, OpenAPI3, AsyncAPI2
- **Integration:** APIGEE, Solace., Google Pub/Sub
- **DevOps Tools:** Gitlab CI/CD, Jenkins, Docker, Docker swarm, Kubernetes
- **Hosting:** Google Cloud Platform, AWS, Cloud foundry
- **Simple Storage Service:** GCS, Amazon S3
- **Frontend:** Angular, React
- **Backend:** JavaEE, SpringBoot, Spring, Struts, NodeJS, Python
- **DB:** Postgres, MySQL, Oracle, DB2, MS-SQL
- **Value Tracking:** Matomo
- **Logs & APM:** Kibana, Dynatrace
- **Security:** NetIQ, OpenID connect, OAuth2
- **Serverless:** Google Cloud Functions, Cloud Run, AWS lambda
- **AI managed services:** Vertex LLM

## CAREER PATH AND INTEREST

- Career path: Dual ladder (Technical ladder (75%); People Management ladder (25%))
- Interest:
  - AI enabler: Study & Explore AI for biz improvements and productivity.
  - Technical leadership in Digital transformation
  - Data & integration platform.

## CURRENT DESIGNATION & ROLES

- Designation: Deputy General Manager (from 2023-till date)
- Roles: Technical leadership, Mentor, Coach, Delivery head/Functional manager, Competency head (API, Cloud migration & Integration platform) & Principal Architect.

## PROJECTS EXPERIENCE

2018 – TILL DATE

### **API FACTORY CHAPTER LEADER/ SOLUTION ARCHITECT / API REFERENT/ PRODUCT LEADER, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Leading RNTBCI API factory team on collaboration with central Renault France Architecture team
- As an API referent Involved in Renault API/Event Governance activities.
- Involved in new enterprise referential repository design and development.
  - FOREX referential - centralize foreign exchange rates data is a unique repository.
- Involved in the API store (Data marketplace) architecture, design, and e2e development.
  - *The API store is a Renault developer B2B/B2C portal to sell Renault Digital data to third party customer in a secure and easy way. It is mainly used to generate new revenue from APIs/Event data products.*
- Involved in new façade API/Event products design and development for Monetization.
- As an API referent, provide technical support to Renault API product teams for API exposition and consumption.
- Involved in the API quality improvement Tool architecture, design & development (New innovation tool, Playing Product Lead role as well.)
- Have given API design training to 350+ folks in RNTBCI
- Participated in the API webinar as a speaker.

2019 – TILL DATE

### **CLOUD TRANSFORMATION TECHNICAL LEADER/SOLUTION ARCHITECT, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Leading RNTBCI cloud migration team on collaboration with central Renault France Cloud Transformation technical team.
- Involved in to define Migration strategies.
- Involved in migration cost analysis & cost optimization.
- Involved in Application reengineering & Replatforming activities.
- Contributed to Patterns definition & developed reusable components for cloud migration acceleration.
- Have given cloud migration enablement training to 200+ folks in RNTBCI.
- Involved in cloud migration toolkit preparation for application transformation.
- Participated in Cloud migration webinar as a speaker.
- So far now, transformed 80+ application from onprem DC to Google Cloud Platform within 48 months.

**2023 – TILL DATE**

**DELIVERY HEAD & FUNCTIONAL MANAGER, SOLUTION ARCHITCT RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- IAM product (sailpoint) development & Solution architecting / Implementing OKTA AI usecase to hunt bad design from java code using GCP Vertex LLM.
- Owning delivery head responsibilities of value stream product development and delivery includes API store, API KPI dashboard, API Quality improvement Tool, Web Forex, Product PULSE, PANDA(Product ANALysis performance DASHBOARD), Service Registry (API Governance tool for API subscription and exposition via APIGEE), Digital backbone (Event Governance platform to provision Topics, Queue)

**2017 – 2018**

**SENIOR TECHNICAL LEAD, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Involved in new Renault Digital stack (5<sup>th</sup> Generation) preparation for both Web & Java
- Involved in Renault DevOps tool study & supported to many pilot projects for DevOps rollout in RNTBCI.
- Provided support to project teams for CI/CD application delivery pipeline to automate the application delivery & deployment.

**2016 – 2018**

**TECHNICAL LEAD, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Involved in new Alliance Standard Framework (ASF – 4<sup>th</sup> Generation) stack for both Web & Java preparation on collaboration with central Renault technical team, Nissan Japan, Nissan Europe & Nissan North America technical team.
- Involved in Architecture, Design, and developer guidelines preparation.
- Provided L3 tech support to Alliance project team.
- Have given ASF design training to 200+ folks in RNTBCI

**2014 – 2016**

**ASSISTANT TECHNICAL LEAD, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Involved in new Renault Application framework (3<sup>rd</sup> generation) – SAJ v4 development (Socile de Applicative Framework) & rollout.
- Have given SAJv4 training to 50+ folks in RNTBCI.

**2011 – 2013**

**SENIOR SOFTWARE ENGINEER, RENAULT NISSAN BUSINESS TECHNOLOGY CENTRE INDIA (RNTBCI), MAHINDRA WORLD CITY, CHENGALPET**

- Developed new projects from scratch for Renault IS department.  
Projects are.
  - Tools Inventory Management (TIM) for Renault Purchasing to manage inventories of tools deployed in Renault supplier's site.
  - GEd Auto Factory (GEA) for Renault Supply Chain Management to manage Renault factory elements such as robotic design files etc..
  - Gestion Des Visiteurs (GDV) for Renault support function to manage Visitor on Renault Sites.

**2007 – 2011**

**SENIOR SOFTWARE ENGINEER / SYSTEM ANALYST, FORD TECHNOLOGIES SERVICES INDIA (FTSI) - DEPUTED THROUGH SYSTEM TECHNOLOGY GROUP, TIDEL PARK, CHENNAI**

- Project Name: SERVIS2 (SERvice Vehicle Information System2)
- Involved in e2e coding to develop Extended warranty business system and integrated this new module into warranty claim processing core module
- Played ESB market launch technical coordinator role for India, Malaysia, Thailand, Vietnam, Taiwan, South Africa, Australia, New Zealand rollout
- Business Goals
  - Automate warranty and extended warranty business system & claim processing.
  - Build and deliver a quality software product to be used by FORD DEALER throughout the FORD ASIA PACIFIC Region. It provides common business approach within Ford Asia Pacific and Ford South America regions. This involves around 15 countries within these two regions.

**2006 – 2007**

**SOFTWARE ENGINEER, THAPOVAN INFO SYSTEM PVT. LTD, T. NAGAR, CHENNAI**

- Project Name: Sales track application
- Client Name: Welcomewagon , USA – Long Island
- Involved in new development coding, production support.
- Business Goals
  - Sales Track is an On-line daily presentation log system. Sales Track allows Sales managers knew how many presentation logs were made in each business day in each business division. Sales reports were scrutinized in team meetings and important business decisions were made based on those sales reports.

**2005 – 2006**

**SOFTWARE ENGINEER, THAPOVAN INFO SYSTEM PVT. LTD, T. NAGAR, CHENNAI**

- Project Name: Paltalk Web portal
- Client Name: Paltalk Corporation, USA – New Jersey
- Involved in new development coding, production support.
- Business Goals
  - This portal provides the facility of communication interface to interact with paltalk people across various regions. Web conference interface provide the voice communication and messenger service provide the chat facility for registered paltalk peoples and various search provision is available for seeking paltalk hotties.

## **EDUCATION**

**ACEDMIC YEAR 2000-2004**

**ELECTRICAL AND ELECTRONICS ENGINEERING, ALAGAPPA CHETTIAR COLLEGE OF ENGINEERING AND TECHNOLOGY (ACCET), KARAIKUDI, SIVAGANAGA DISTRICT.**

- SECURED 70% MARKS

**ACEDMIC YEAR 1998-1999**

**HIGHER SECONDARY SCHOOL, SALIYAR MAHAJANA HIGHER SECONDARY SCHOOL, ARUPPUKOTTAI, VIRUDHUNAGAR DISTRICT.**

- SECURED 87% MARKS
