EXPERIENCE

JR. PROJECT ENGINEER | 02/2020 to 01/2021

AG Enviro Infra Projects Pvt Ltd - Noida, UP, India

Worked in the Civil and Operations department overseeing the Door to Door Collection, Transportation and Disposal of Municipal Solid Waste (MSW) in the entire Noida, UP, India area under contract with Noida Authority.

- Collaborated with government officials to expedite bureaucratic and political approvals and ensure timely release of payments enabling smooth operation of the project.
- Successfully got financial penalties revoked on the company. As an engineer, I oversaw the operation and maintenance of waste transfer stations, coordinated the collection and disposal of municipal waste, and ensured the upkeep of compactors.
- Additionally, I managed the user collection charge department and increased revenue for the company.
- I have extensive experience overseeing the operation and maintenance of waste management facilities and equipments, including Fixed Compactor Transfer Stations and Portable Compactors.
- I ensured timely and coordinated collection of municipal waste from households, industrial and commercial establishments, and disposal in landfills.

JR. PROJECT ENGINEER | 04/2018 to 01/2020

Antony Lara Renewable Energy Pvt Ltd - Pune, Maharashtra, India

Worked in the Project construction and Operations department with cross-functional roles and responsibilities to Lead the design and construction of a **14 MW Waste to Energy (WTE) powerplant using (MSW)** as fuel in Moshi Dumping Ground, Pimpri Chinchwad, Pune, India under contract with Pimpri Chinchwad Municipal Corporation(PCMC)

- Collaborated closely with government officials, including PCMC bureaucrats and politicians such as an MLA and corporators of the Municipal corporation to ensure smooth functioning of the company and expedite bureaucratic and political approvals. I reported directly to senior management and assisted them in meetings, presentations, and negotiations.
- **I endeavoured to finance the company's PCMC WTE project** through personal networking with known investment banking and financial institutions.
- As an engineer, I oversaw the erection, commissioning, operation, and maintenance

of RDF and compost plants, including a 1000 TPD MRF plant and compost plant, which included two 35 TPH RDF trommel and 15 TPH compost plant trommel, and a 100m x 40m PEB compost plant shed.

- I ensured proper segregation of MSW into RDF and compost during shifts and timely maintenance of all plant machinery for optimal performance.
- I also oversaw the maintenance of a sanitary landfill and the compaction and disposal of RDF and inert material at designated spots.
- Furthermore, I demonstrated exceptional purchase skills by bringing in the most competitive and low-priced quotes from vendors, resulting in **cost savings for the company up to 60%** on specific purchase requisitions.
- Additionally, I was responsible for the operation and maintenance of the **BACKHUS A36** Compost turning turner from Eggersmann GmbH Germany, the first of its kind in India.

GRADUATE ENGINEER TRAINEE | 03/2017 to 10/2017

Indian Oil Adani Gas Pvt Ltd - Ernakulam, Kerala, India

Worked in the Project Construction department as Site Engineer to Supply PNG (Piped Natural Gas) to domestic, commercial, and industrial customers and setting up CNG stations in the entire Ernakulam, Kerala, area.

- Experience in City Gas Distribution-PNG as a Site Engineer In-charge of MDPE Operation and Maintenance Department.
- Liaised with all levels of government to ensure smooth functioning of the company by expediting bureaucratic and political approvals and permissions.
- Expertise in man management and material management, knowledge of international codes and standards, and familiarity with safety precautions and QA&QC for natural gas or hydrocarbons.
- Experience in Laying of Steel, MDPE Gas Pipelines and working knowledge of Feasibility Study Report for new Projects.
