Education

M.TECH / J.C BOSE UNIVERSITY
OF SCIENCE & TECHNOLOGY,
YMCA Computer Engineering from
2019 – 2021
C.G.P.A – 8.12/10

B. TECH / DEENBANDHU
CHHOTU RAM UNIVERSITY OF
SCIENCE AND TECHNOLOGY
Electronics & Communication
Engineering from 2016 – 2019
C.G.P.A- 6.18/10

DIPLOMA / AMBEDKAR
POLYTECHNIC, BTE Computer
Engineering from 2013 – 2016
Percentage- 65%

Key Skills

Data Visualization using Power BI

Python

Machine learning

SQL

Image Processing

Objective

I am a masters in engineering currently working as an assistant professor seeking a transition into IT sector. I am well versed in Power BI, Excel, Python, ML and SQL. I am confident that with my technical knowledge, I can bring an impactful addition to the job role.

Experience

Assistant Professor / GN Group of Institutes

NOVEMBER 2021 – TILL DATE

Academics Projects

Optimization of Texture Feature Extraction Technique for Parkinson Disease

In this project, the texture feature extraction technique i.e., GLCM is used for classifying the Parkinson Disease affected and healthy individuals. The performance of statistical feature extraction technique is then optimized by using the HOG descriptor and Canny edge detection technique.

Comparison analysis of GLCM and PCA on Parkinson disease using structural MRI

This project is used for extracting the features from the Parkinson-affected brain images obtained from the PPMI database. In this study, two feature extraction techniques were selected and then analyzed.

Industrial Appliances Management Using IOT

An approach for building an IoT software-based industrial automation system was implemented and tested through the built model. It focuses on safety and security perspective of industrial automation.

Certifications

1. NPTEL Online Certification: The Joy of Python (IIT Madras)
2. Data analytics using SQL, Advance Excel and Power BI

Research Paper

Research paper published in (IJJR- ESCI indexed Journal)
