

Career Profile Summary

- ◆ Over 24 years of experience in IT/Telecom (22 years in Telecom)
- ◆ Billing Consultant at ATOS ME, Dubai – for Du telecom project (Nov 2012 – presently working)
- ◆ System Analyst at DU, Dubai (May 2009 – Oct 2012)
- ◆ Senior Billing/Revenue Assurance Specialist at Syriatel, Syria and Y-GSM, Yemen (Nov 2002 - Jan2009)
- ◆ Worked as Billing Analyst / Developer at BPL Mobile, Mumbai (March 2000 - Nov2002).

Skill Set

- ◆ Currently handling CB 8 (collection broker RAID 8) – Design , development , implementation and maintenance of all environments,
- ◆ Certified Scrum Master – Three successful PI's with two Du Agile Squads.
- ◆ MATRXXX Certified Specialist (Installation , Integration, Operations, Pricing)
- ◆ ICS version 7 (Integrated Collections Solution) Configuration/ Development.
- ◆ Knowledge of BSCS IX, 5.21, 6 (Billing/Roaming), Jupiter Billing system.
- ◆ Tariff module configuration (using BSCS scripting), IOT CR's, prepare the assessment, development and verification after deployment.
- ◆ Shortcode, Special number configuration.
- ◆ Knowledge of Billing/Rating, BSCS iX Configuration.
- ◆ Automated Roaming processes TAPIN, TAPOUT & TADIG.
- ◆ Developed software for Roaming (TAPIN & TADIG process) for BSCS 6.
- ◆ Monitoring of regular operations for effectiveness & continuous improvement.
- ◆ Developed software to validate TAP3 files. (Encoding/Decoding Using Java).
- ◆ Developed Time Base Dunning process (TBD).
- ◆ Designed and developed the automated reporting tools for RA.
- ◆ HLR Reconciliation process Automation, using Java/ORACLE.
- ◆ ISP Reconciliation ORACLE SQL/PLSQL.
- ◆ Extensive knowledge of Revenue Assurance processes.
- ◆ Good Analytical skills, Resolved Many Issues of Prepaid/Postpaid, minimizing revenue leakages.
- ◆ Worked on implementation/UAT of (Subex – Azure RA System).

◆ **Billing Consultant – ATOS Middle East, Dubai (for Du telecom Project) (Nov 2012 – Presently Working)**

Following are the Revamp/Enhancements developed / implemented for ICS /CB 8

- 1) Credit Control business process, customer based screens and reports.
- 2) Online Payment system – Payment replication from source system to ICS using JMS listeners.
- 3) Data replication from source system BSCS to ICS using ICS JMS listeners.
- 4) Maintaining the ICS system and CR development, (adding Rataplan, Scenarios, strategies flows, ICS production issues.)
- 5) ICS Production support.
- 6) ICS server Installations/ setup, maintenance of UAT + TQC servers.
- 7) TQC testing support related to new CR testing.

◆ **System Analyst – Du, Emirates Integrated Telecommunications Company, Dubai (May 2009 – Oct 2012)**

Development and Maintenance of ICS (Integrated Collections Solution), ICS is a Collection and dunning system. (WEDO Technology product),
MNP migration CR developed and implemented in ICS,

BSCS ROAMING Configuration (BSCS scripting),
ROAMING/ RATING Related CR Development (BSCS scripting),
Tariff module configuration, IOT CR's, prepare the assessment, development, testing and rating verification after deployment.

Developed scripts/ and maintain SMS/MMS Short Codes into BSCS, as per the business requirement. More than 500 short codes created and maintained.

Timely deliver the business requirements (CR).

Interaction with TQC/BRM team to support and fix the defects to deployment team.

Handled TADIG testing and Roaming Configuration (BSCS IR, CX, oracle scripting).

◆ **Revenue Assurance Specialist: Hits Unitel(Y-GSM), Yemen (Oct 2008 – Jan2009)**

My role was to analyze the current system and develop/implement RA process,
Developed /implemented the processes IN Balance check, HLR vs. Billing Reconciliation, IN vs. HLR,

Developed system to identify the rating problems (prepaid, postpaid, international calls, and TAPOUT) and many more in pipe line to find out revenue leakages prepaid/postpaid, to find out errors during the various stages of the systems.

◆ **Billing/Revenue Assurance Specialist: Syriatel, SYRIA (Nov 2002 – Aug 2008)**

Worked on planning, Implementation project of Jupiter Billing System.

Implemented the RA processes to find out revenue leakages prepaid/postpaid after identification of errors during the various stages of the systems.

Automated the HLR Reconciliation in Java/Oracle, Solving the discrepancy between billing system and HLR data, preparing the reconciliation report, the process is getting executed without any manual interventions.

Worked on various types of reports & statistics - Liaise with commercial departments (Marketing, Finance, Credit Control and Customer Service) in developing Business and ad-hoc reports

Designed and developed the automated reporting tools for Daily/Monthly reports (VB/ORACLE/EXCEL/ACCESS),

Total 58+ different reports on Prepaid and Postpaid are generated, including monthly Revenue reports, discrepancy Reports, rating errors.

Developed a process in Java to rate the unrecognized/Unallocated calls from billing system & prepares reports for analysis to clear the cause with Technical/Mediation/Billing.

Worked on prepaid project to develop front-end modules (developed in Java/Oracle),

Software support & development for already developed systems in VB/ORACLE -

1) Customer Support Application

2) IVR Pay.

ISP Reconciliation ORACLE SQL/PLSQL: Subscribers Call details vs Invoices billed for Prepaid/Postpaid – (Monthly Basis),

Worked on implementation/UAT of (Subex – Azure RA System) - Reconciling Moneta results with the process which is automated (in house development for RA)

◆ IT executive: BPL Mobile, Mumbai. (March 2000 – Nov2002)

Handled roaming operations including rating, errors tracking during various stages of rating and fixing them on daily basis. (Recycling rejected records with no delay)

Developed software in JAVA to decode/encode TAP3.x files for TAP file validation, which is required after migration to higher billing version.

Co-ordination with clearing house roaming related issues, day to day activities including RAP dispute, New Launched issues, Parked files.

Handled TADIG testing and Roaming Configuration (BSCS IR, MP),

Extract data needed from databases, use database tools to monitor and report on data, and recognize deviations in the data that indicate problems.

Developed Time Base Dunning process (TBD).

Provide detailed revenue and cost impact on all usage anomalies to management.

Make process improvement recommendations to management based on findings. Support recommendation by providing detailed impact analysis of proposed change. Include all departments that would be impacted by the proposed change.

Pay close attention to detail and ensure accuracy work on more than one activity at once and meet tight deadlines.

Roaming MIS reports generation.

Developed processes and tools to monitor and analyse new services that generate usage, which need to be monitored and reported separately.

◆ Marshal Computers, Mumbai from Apr 1997 – March 2000

Role: Worked as a VB Programmer/ Lab Instructor for Marshal Computers, Mumbai.

◆ MIAECT Computers, Mumbai from June 1994 – Apr 1997

Role: Worked as a FoxPro Programmer/ Lecturer for MIAECT Computers, Mumbai.

Achievements:

Saved revenue, decreased cost of operations on various fronts by automation and in-house development gain long term benefits.

Minimized billing disputes by developing validation program before rating into billing system to ensure error free billing and higher customer satisfaction & loyalty.

Objectives:

To work in a dynamic, challenging environment like IT-Telecomm/Revenue Assurance - with dedication, focus, proactive approach, positive attitude to fulfill organizational goals by utilizing my knowledge/Skill/expertise.

Expertise Summary:

Languages/Front Ends Known: Visual Basic, Java, C, Unix scripting

Operating Systems: Windows 2000/XP, Dos, UNIX (HP UX 11.0 & SCO UNIX)

Back End: Oracle / Access / MS SQL server 2000

Educational Qualifications: (Degree – Year –University

Bachelor degree (Computer Science) – 1992 – Amravati University

Additional Qualification:

Masters in Computer Software Applications- Datapro InfoTech (2 Yrs)

Date of Birth: 07- May -1971

Nationality: Indian;

Permanent Address: Vasai, Pin: 401201, District: Thane, Maharashtra, India.

Current Address: Dubai, United Arab Emirates

Mobile : 00971559532317
