OBJECTIVE

Work in competitive and challenging environment so as to enhance my technical & personal attributes, implement efficient working methods for the betterment of organization and thus to deliver tangible value to employer.

TITLE

- Experience in production of automotive components & systems of Engine and Belt & Chain drive systems as Executive Engineer 7.6 months.
- Shift scheduling, production planning, shift monitoring, SFM board daily reviews, achieve monthly targets, machine setting primary maintenance etc.
- Exposure to Lean Manufacturing systems, principles of continuous improvements like cycle time reduction, waste identification, 5S implementation, zero defect principle - error free process, move towards lean manufacturing.
- Completed M. Tech in Design Engineering with CGPA of 9.2. Also, strong academic knowledge in Vibration Analysis, Noise Analysis using COMSOL Multiphysics and ANSYS.

EDUCATION

POST GRADUATION (M. TECH)– DESIGN ENGINEERING
CGPA 9.2

MIT WPU,PUNE / 2019 -2021

Projects

M.Tech Project 1

Acoustic analysis and modelling of reactive muffler to reduce noise of the system.

This study describes the acoustic Analysis of Double Expansion Chamber Reactive (DEC) Muffler with various combinations of placement like side outlet. The approach is useful in the acoustic analysis of Double Expansion Chamber Muffler for maximizing Sound Transmission Loss.

The purpose of paper is to Design and analysis of double expansion chamber with side outlet for maximizing transmission loss with the help of numerical analysis as well as experimental analysis.

Software used= COMSOL MULTIPHYSICS, ANSYS.

M.Tech Project 2

Design a System to control Rollover Action of heavy Vehicles.

Design system based on ECS system, which gives accurate feedback to the controller about speed, acceleration, angular velocity etc.

Software used=, ANSYS, MATLAB and Python

RESEARCH PAPER PUBLICATION	
• Publication Name= IJSER Paper ID -I0168995 on topic of	
Acoustic analysis and modelling of reactive muffler to reduce noise of the system.	
• Publication Name= ELSEVIER on topic of	
Finite Element Analysis of Double Expansion Chamber Reactive Muffler	

ACHIEVEMENTS

- Best paper presented in SYMPOSIUM-2021.
- Team Leader-SUPA Robocon Team- MIT WPU

GRADUATION - MECHANICAL ENGGI.	AMIE/ 2015-2017	CGPA
(THE INSTITUTION OF ENGINEERS,INDIA)		

Successfully Completed B.Tech from Institution of Engineers (India)

Project

Analyse and Rectify the defects of Hydraulic Chain Tensioner : sponsored by Schaeffler India Ltd

DIPLOMA- MECHANICAL ENGG.	CSPA,POLYTECHNIC SATARA/2011-2014	73.6
---------------------------	-----------------------------------	------

Project

Making of Bamboo stripper machine to cut the bamboos

SSC	Anant English School,Satara 2010/2011
-----	---------------------------------------

PROFESSIONAL EXPERIENCE

SCHAEFFLER GROUP – PUNE, MAHARASTRA, INDIA

Executive Engineer, – Belt and Chain drive systems July 2014- Present (7 years and 7 months)

- Shift planning for material and man power. Implementation of 5S, Kaizen, cycle time reduction of various machines. Work on pull flow principle, C2C project developer, shift scheduling, production planning and booking, shift monitoring, SFM board daily reviews, achieve monthly targets etc
- Maintain production data in SAP, Running production lines of Overrunning Alternator Pulley (OAP), Chain knitting line, Hydraulic tensioner, BSR assembly, chain sliding pad assemblies, chain sprocket inspection
- Wide knowledge about components Assembly of Belt and Chain Drive systems such as hydraulic chain tensioner, chains, Alternator pulleys, BSRA pulleys, bearings etc. Also, good knowledge of machine settings, trouble shooting and maintenance.
- Good conceptual skills, time management, organizing ability, problem solving skills, planning and attention to details and analytical ability.

ACHIEVEMENTS

- Best Kaizen award from Hyundai in Kaizen competition 2016 for maximum cost saving and for good quality
- Best Kaizen in segment for manual to automatic conversion of hydraulic tensioner assembly machine

Company profile:

The Schaeffler with its brands INA, LuK and FAG is a leading manufacturer of automotive components, assemblies and bearings. This is Germany based group having group's sales turnover around 14.0 billion Euro and engaged in the manufacturing of bearings, clutches and precision engine, chassis & transmission components.

Key Responsibilities.....

- Shift scheduling, production planning, shift monitoring, SFM board daily reviews, achieve monthly targets, IATF documentation etc
- Working with various special purpose machines on Overrunning Alternator Pulley (OAP) assembly and testing line like LBM machines, Torque checking machine, thread checking machine etc with its operational level maintenance
- Maintain SFM board
- Support in analyzing the internal and external customer complaints
- Work on action plans, day to day production planning & hand over the shift
- Achieve maximum productivity of line
- Reduce scrap, minimize waste and operate on error free process (zero defect processes)
- Complete monthly organization target
- Ensure men, machine, material, environmental safety
- Maintain and update production records in SAP system

Details of Training and Seminars attended

- SAP – production Module : INA Pune, Rieco Pune.
- 5 S : INA Pune
- MOVE training (Lean manufacturing)
- Tata Technology ltd - 3 days program for design thinking : MIT WPU Pune
- Research technology & Optimization techniques: MIT WPU Pune
- IOT Training : MIT WPU Pune

COMPUTER LITRECY:

- | | |
|-----------------------|------------------------------------|
| • MS office | Mta lab |
| • Auto cad 2010 | Ansys |
| • Catia V5 & Pro E | Hypermesh |
| • COMSOL MULTIPHYSICS | Data science and python –appearing |

PERSONAL PROFILE:

- Date of Birth: 2nd March 1996
- Marital Status: Un-married
- Languages: English, Hindi, Marathi.
- Referencees: Available if desired

Signature,

Akshay V. Shinde

Place: Pune
