PROFESSIONAL SUMMARY

Experienced Engineering Officer with a demonstrated history of working in the Shipping Industry. Skilled in Industrial Safety, Marine Operations, Marine Technology and Operations Management with adherence to QHSE.

Sound Engineering Professional with a Bachelor of Technology focused in Marine Engineering from West Bengal University of Technology and holding MEO Class IV FG COC from DG Shipping, Govt. of India. Currently working as a Compliance Officer in a reputed Ship Owning cum Management Company looking after Technical & Regulatory Compliance.

EDUCATION

**Bachelor of Technology
Marine Engineering**
West Bengal University of
Technology (now MAKAUT)
Neotia Institute of Technology,
Management & Science
2012-2016
8.43 DGPA

Higher Secondary
CISCE Board
Julien Day School
2012
Physics, Chemistry,
Mathematics, Computer Science
86.75 %

Secondary
CISCE Board
Julien Day School
2010
Physics, Chemistry,
Mathematics, Computer
Applications
87.80 %

WORK EXPERIENCE

**Panbulk Shipping DMCC
Compliance Officer**
July 2024-Present
(Shore Job)

Carnival Cruise Lines
HVAC&R Engineer Cadet

Apr 2023 - August 2023
January 2024 - March 2024

Hermes Ship Management
Third Engineer
May 2022 - September 2022

Reliance Industries Ltd.
Marine Engineer (OICEW-2/E)
July 2021 - October 2021

Valentine Maritime Gulf LLC
Third Engineer
November 2020 - December 2020

Pacific Radiance
Third Engineer
June 2020 - July 2020

KNK Ship Management
Third Engineer
September 2019 - February 2020
November 2018 - June 2019

SS Offshore
OICEW
June 2018 - October 2018

APJ Shipping
Trainee Marine Engineer
Apprenticeship
October 2016 - April 2017

SKILLS

PROJECT MANAGEMENT

Actively assisted engineering team in repair and maintenance of Propulsion System, Marine Diesel Generators, Pumps and allied Systems, Power Generation Systems and High Voltage Systems. Responsible for assistance, coordination and supervision of shore based crew for major maintenance and repairs to the Ship. Managed day to day operations of Junior Crew Members, oversaw technical training, achieving a safe working environment. Carried out Risk Assessment / Job Hazard Analysis for various maintenance tasks. Led maintenance tasks of various machinery like diesel generators, oil purifiers, and air compressors. Prepared maintenance plans and reports for efficient data recording for future references. Organized safety observation meetings, improving overall awareness and facilitating communication in a cosmopolitan crew, achieving safe and efficient operations.

OPERATIONS MANAGEMENT

Led multi-national work-teams in critical and environmentally sensitive ship refueling and sludge discharge operations. Maintained operational parameters of 10+ interlinked machinery systems within control limits and executed troubleshooting measures in instances of deviations. Assessed root cause of failure and carried out preventive maintenance measures to minimize down-time of equipment, and thereby the whole Ship. Analyzed machinery operational parameters to plan maintenance activities and forecast inventory requirements.

ENERGY MANAGEMENT

Carried out fuel optimisation and energy optimization projects, in order to improve the KPI. Calculating and analyzing the feasibility and advantages of running Waste Heat Recovery Systems on board Ships.

QHSE (Quality, Health, Safety and Environment)

Carried out weekly safety checks on board, playing a significant role in FLS (Fire, Life & Safety related matters). Have been awarded and encouraged on board the ships for promoting safety culture and reporting safety observations found on board by Senior Management Level Officers.

INVENTORY MANAGEMENT

Restructured the inventory storage plan, categorizing inventory, reducing potential excess orders and saving man-power to be utilized in other operations. Carried out stock checks and managed inventories of spare parts, consumables and safety gears on board vessels. Carry out regular analysis of fuels and lubes being consumed and take stock in order to assist in managing inventories of the same, and raise requisition in case of need.

CRISIS MANAGEMENT

Developed very strong problem solving skills through troubleshooting and maintenance of various engine room equipment with the limited resources available onboard while following strict timelines and deadlines.

AWARDS & CERTIFICATIONS

- Holding Advanced Lean Six Sigma Yellow Belt Certification (accredited by the The Council for Six Sigma Certification, USA).
- Secured Bronze Medal (Third Rank) in Bachelor of Technology (Marine Engineering) Degree Examinations held under the aegis of the West Bengal University of Technology, for 2012-16 Batch.
- Cleared Marine Engineer Officer Class IV Competency Examinations conducted by DG Shipping, MoPSW, Govt. of India.
- Volunteered for Economic Empowerment & Poverty Alleviation activities while being an active member of Ajantrik, the socio-cultural club of NITMAS/TNU.
- Certificate Course in Entrepreneurship (CCE) from Srinji Raju Centre for IT and the Networked Economy at Indian School of Business & CSC Academy.
- Vocational Training in Heavy Electrical Department at Eastern Railways, Govt. of India, Kolkata.
- Secured 97% in Marlin's English Language Test for Seafarers conducted by ISF (International Shipping Federation) and Marlin's (UK).
- Certifications/Training in Marine Engineering, Maritime Safety, Pollution Prevention, Industrial Safety, Resource Management, Marine HVAC&R, etc. from Distinguished Maritime Institutions.
- Freelancing experience of sourcing relevant Seafarers through Social Media Channels for Small Shipping Companies.
