

UJJEEVANATHAN R J

Result-oriented and creative professional, targeting assignments in:
SOFTWARE DESIGN & DEVELOPMENT

+91 9940179162

rj.ujjeev@gmail.com

PROFILE SUMMARY

- Result-oriented professional with nearly 13 years of rich experience in **Software Development with exposure in Infotainment System**
- Gained exposure in **software development in C++ using few design patterns; worked on Software Development Design Cycle (Agile) Methodology**
- Conceptualized and headed Centre of Excellence (CoE) through managing key hiring and building a training engine to ensure compliance as per **industry best practices and quality frameworks**
- Provided insightful knowledge of business process analysis (As-Is, To-Be) and design; managed application-based process re-engineering, process optimization, cost control & revenue maximization from technical solutions using cutting-edge technologies
- Defined, led and developed the Product and IT Roadmaps to highlight key milestones while creating project deliverables and defining requirements, scope, duration and cost of projects
- Mapped requirements of clients as well as different Service Providers, Senior Management, Vendors / Consultants & other Stakeholders for ensuring effective translation of business needs into technology requirements in adherence with company's objectives
- Created a software design process to translate business requirements into technical design documents resulting in improved quality control and output that was 'right the first time'
- Implemented appropriate methodology to add value to the consultants' deliverables; worked with consultants in identifying improvements in deliverables; developed methods to achieve delivery of desired results; acted as the quality control point for consultant deliverables
- Experienced in project management activities including project scoping, estimation, planning, risk management, finalization of technical/ functional specifications, resource administration & quality mgmt. of product application
- Interfaced with clients from multiple domains, suggesting viable product & solutions and cultivating relations with them for securing repeat business
- Headed Agile Software Development Lifecycle including requirement gathering, technical architecture, code quality practices, test automation, roll-out of release plans and maintenance
- Proficient in leading business architectural efforts to resolve integration & interface issues between various systems with focus on optimizing performance, acted new features and scalability

EDUCATION

2004
B.E. (EEE)
Bharathidasan University

CORE COMPETENCIES

Machine Learning Technology

Software Development Lifecycle
(SAFE Agile / Scrum / Waterfall
Methodology)

Requirement Gathering and
Elicitation

Risk Management /
Solution Optimization
Project / Service Delivery
Management Lifecycle

Leadership/ Trainings

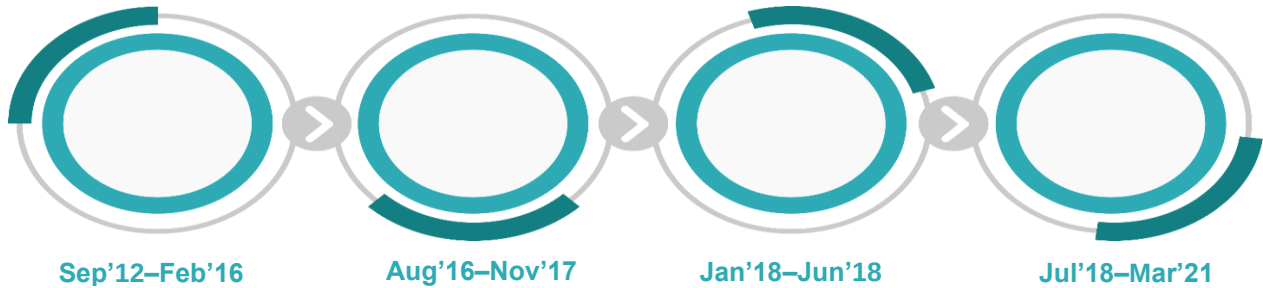

CAREER TIMELINE

Kone Elevator, Chennai as Engineer

Zilogic Systems, Chennai as Senior Engineer

Global Edge, Bangalore as Lead Engineer

Visteon Technology, Chennai as Technical Lead

WORK EXPERIENCE

Technical Lead

Apr'22 – Till date: Quest Global

Role:

Projects Executed:

Project: Industry-leading performance for enterprise-grade IoT solution development for customer. The Impinj R700 reader is designed to support global RAIN deployments that need industry-leading performance, enterprise-grade reliability and security, and support for next-gen RAIN tags. IoT developers can easily build and deploy customized solutions with developer-friendly tools, increased processing power, and increased on-reader memory.

Domain: C++, Python, Embedded Linux

Role:

- Reviewing the requirement;
- Organizing team meeting on customer feedback
- New feature implementation.
- Code review with teams.
- Fixing the bugs reported in defect tracking tools.

Technical Lead

Jun'21 – Apr'22: Joules to Watts

Role:

Projects Executed:

Project: Precision Dispatching System (PDS) - It is the command-and-control system at the heart of railroad operations. PDS is designed to safely and efficiently move trains across the rail network in both signalled and dark territory, provide full visibility of network conditions, and monitor all devices in the network.

Domain: C++, Java, Python.

Role:

- Reviewing the requirement;
- Organizing team meeting on customer feedback
- New feature implementation.
- Code review with teams.
- Fixing the bugs reported in defect tracking tools.

Technical Lead

Jul'18 – Mar'21: Visteon Technology, Chennai

- Role:**
- Projects Executed:**
- Project:** TATA Q5 – Visteon
- Domain:** C++, Linux, Python, KANZI
- Project:** PSA – Visteon
- Domain:** C++, Linux, Python, KANZI
- Project:** Mahindra (W601) – Visteon
- Domain:** Android, Flutter, Python
- Role:**
- Reviewing the requirement; developing a project prototype using UML Tools
 - Organizing team meeting on customer feedback
 - New feature implementation
 - Code review with teams.
 - Fixing the bugs reported in defect tracking tools.

Lead Engineer

Jan'18 – Jun'18: Global Edge, Bangalore

- Project Executed:**
- Project:** HARMAN
- Domain:** C++
- Assessed:
 - Bugs raised in Elvis Tool
 - DLT logs and ATS logs attached with the bug report using DLT viewer and ATS viewer
 - Directed the issue to respective team post analysis
 - Part of Scrum meeting

Senior Engineer

Aug'16 – Nov'17: Zilogic Systems, Chennai

- Role:**
- Reviewed requirements; created a project prototype using UML Tools
 - Conducted meeting on customer feedback; attended Scrum meeting
 - Led tool development for project assistance

Engineer

Sep'12 – Feb'16: Kone Elevator, Chennai

- Projects Executed:**
- Project:** KCE-CPU
- Domain:** C++, Linux
- Role:**
- Mapped & assessed the requirements
 - Part of daily Scrum Meeting
 - Led new feature implementation

- Ensured existing feature enhancement
- Managed Sprint Planning
- Developed:
 - Unit test development
 - Class diagram and sequence diagram for feature related developments

Project: TS-DOP

Domain: QT, C++, Linux

Role:

- Identified & reviewed the requirements
- Part of:
 - Daily Scrum Meeting
 - New feature implementation
 - Existing feature enhancement
 - Bug fixes
 - Sprint Planning
- Created:
 - Unit test development
 - Class diagram and sequence diagram for feature related development

PREVIOUS EXPERIENCE

Engineer

Jul'10 – Nov'11: Appasamy Associates, Pondicherry

Projects Executed:

Project: AUTO-Perimeter

Domain: QT, C++, Linux

Project: ICHART

Domain: QT, C++, Linux

Software Engineer

Oct'06 – Dec'09: Lason India Pvt. Limited, Chennai

Projects Executed:

Project: FISERV Mediclaim Processing

Domain: C++

PERSONAL DETAILS

Address	: No. 6/96, 11 th Avenue, Pudur, Ambattur, Chennai- 600053
Date of Birth	: 19 th June 1982
Languages Known	: English & Tamil
