I am a Computer Science Engineering student specializing in IoT with experience in developing real-world IoT solutions and AI-driven applications. Skilled in C++, frontend development, and 3D modeling, I also mentor students as part of my college's IoT Club. I'm passionate about building innovative, impactful solutions.

EDUCATION

LNCT, Bhopal • B.Tech. in CSE with Specialization in IoT 2021 - 2025
CGPA: 8.62 (Current)

Kendriya Vidyalaya No.1, Bhopal • Higher Secondary Education 2020 - 2021
Percentage: 90%

Kendriya Vidyalaya GAIL, Jhabua • Secondary Education 2018 - 2019
Percentage: 92%

SKILLS

- **Industrial** : Internet of Things (IoT), Frontend Development, JAVA Programming, 3D Modeling
- **Tools and Technologies** : Teachable Machine, Git, Github, Postman, Autodesk Inventor, Thingspeak
- **Interpersonal** : Mentorship, Team Leadership, Project Management

EXPERIENCE

IoT Club, LNCT, Bhopal, India • IoT Club Mentor March 2023 - Present
Guide students in IoT concepts, covering device connectivity, data management, and practical applications through online simulations and hands-on workshops.

AICTE IDEA Lab Bhopal, Bhopal, India • NGP Intern Feb 2024 - April 2024
Specialized in 3D design and printing, enhancing skills in modeling software and additive manufacturing.

PROJECTS

KrashiCare

Tech Stack - HTML, CSS, JS, ThingSpeak, AI/ML, Sensors, ESP8266, ArduinoIDE, Echo3D

Role - IOT Implementation and AI model training

Designed a web app for crop disease identification, integrating real-time environmental data for analysis via ThingSpeak. Also used 3D models for study of different types of plants.

Able Ed

Tech Stack - HTML, CSS, JS, MongoDB, NextJS, WebAR

Role - Frontend Development

Created a web platform with educational games and AR components to aid learning for students with disabilities.

AWARDS AND ACHIEVEMENTS

SIH 2023 - Grand Finalist

Version Beta (MANIT Hackathon) - Winner
